# REALTREE MAX-5® (WETLAND PATTERN)

**katzkin**  
AUTOMOTIVE LEATHER

*Built with waterfowlers in mind, new Realtree MAX-5 is filled with cattails, reeds, cane and grasses to blend into flooded marshes. Plus corn, wheat, oats and sunflowers to hide in open fields. It has branches, twigs and leaves that work in flooded timber. And with open areas that mimic mud, water, bark and shadows, MAX-5 literally adds another layer of invisibility to camo – no matter where or how you use it.*

AUTOMOTIVE LEATHER

*The Xtra in Realtree XTRA stands for extra effectiveness in the field. This camo pattern blends perfectly year round in a variety of habitats. It blends best from the leaf change of fall through winter, then again in early spring before green-out.*
