Need help determining which pattern you need for your vehicle?

- This new addition to the Online Order Entry process is designed to help you find the correct vehicle pattern quickly and easily.
- Answer a few simple questions about the vehicle's configuration and the tool will return the correct pattern for you. These are the questions that Katzkin Customer Service would ask if you placed an order via phone.
- All current model years are available through the Order Entry Wizard. The Wizard will display a note if a certain make or model is not available through the tool.
- If you prefer to select the pattern that you need yourself, that option is still available.
- Please call Customer Service or your Sales Representative with any questions.
